

How to Prescribe Quell® Fibromyalgia

From prescription to patient in 3 simple steps

1. Prescribe

Complete the Quell Fibromyalgia prescription form and fax it to our exclusive online pharmacy, HealthWarehouse, at **859-525-0198**. You may also call them at 855-446-4375.

2. Pharmacy contacts patient

Upon receiving the prescription, the pharmacy will contact your patient (typically within 1 business day) to collect the required health information and payment details.

To speed up the process, your patient can go to try.healthwarehouse.com/quell to order their device and provide the required information.

Quell Fibromyalgia will then be shipped for arrival within 2-3 days.

3. Patient receives device and training

Upon receiving Quell Fibromyalgia, the patient will download the mobile app and follow the step-by-step device setup and calibration process. If they have any questions, they can speak with a member of our Boston-based Customer Care team.
